

Geetika Gehlot

Montréal, Québec, Canada

Secondary V Student (Graduating 2026)

Physics · Engineering · Multimedia · Performing Arts · Leadership

React · TypeScript · Python · FL Studio · DaVinci Resolve

Profile

Multidisciplinary student with advanced knowledge in physics, mathematics, biology, computer science, engineering, music, media production, and storytelling. Experience: robotics, competitive academics, scientific research exposure, performing arts, television, music production, leadership, mentoring, and multimedia creation across India and Canada.

Known for combining technical depth with large-scale creative execution across scientific, artistic, and entrepreneurial domains.

Education

Westmount High School

Secondary V: Expected Graduation: 2026

- Québec secondary education system
- Strong performance in mathematics, sciences, and humanities
- Member of jazz music ensemble
- YMCA Youth Co-op leadership involvement

Narayana Co Kaveri School

Advanced secondary academic program

- Studied in one of India's rigorous academic streams
- Intensive STEM-focused preparation

Allen Career Institute: Top-most Batch

- Advanced preparation environment for competitive STEM examinations
- Exposure to Olympiad and engineering-level problem solving

Academic Achievements

- Excelled AP Chemistry, AP Biology, AP Environmental Science, AP Physics C: Mechanics, and AP Physics C: Electricity & Magnetism during Grade 10, first year in Canada
- Prepared for SAT, AP Calculus BC, IIT JEE Mains & Advanced, NEET, Physics Olympiads, and Mathematics Olympiads
- Achieved 100 in History and Mathematics and 97 in Science on EMSB ministry examinations
- Winner of TCS ION IntelliGem national competition twice

- Competed in SOF Olympiads, IOQM, JSO, and RMO-related mathematics and science pathways and achieved high rankings and certificated in all
- Extensive self-study in university-level physics, chemistry, biology, and mathematics beginning around age 10–11, contacts with high-tier professors in those areas
- Advanced independent study in quantum mechanics, relativity, supersymmetry, astrophysics, engineering and particle physics
- Youngest attendee at Jun Ye physics seminar, conversed with Jun Ye and Kenneth Ragan, Head of McGill's Physics Department
- Participated in hands-on cancer cell laboratory work including pipetting and gel electrophoresis
- CPR & First Aid Certified

Research & Scientific Interests

- High-energy physics
- Quantum mechanics
- Particle physics
- Astrophysics
- Supersymmetry
- Engineering systems
- Machine learning

Mentorship & Academic Guidance

- Guidance from Amandeep Bakshi, Arpi Hamalian, and Ailie Cleghorn
- Connected with Professor Mariana Frank regarding particle physics mentorship and research direction

Engineering, Robotics & Technical Work

FIRST Robotics Competition: Team 7700

- Worked on robotics engineering and fabrication processes
- Experience with CAD, systems thinking, fabrication workflows, and competition preparation
- Exposure to robotics workshop environments and technical collaboration

Technical Skills

- React
- TypeScript
- Python
- CAD
- Robotics fabrication
- Systems thinking
- Multimedia systems
- Machine learning fundamentals

Software & Production

- FL Studio music production since 2020
- DaVinci Resolve video editing, colour grading,
- Graphic and multimedia production, cinematography
- Photography and visual editing
- Scriptwriting

Leadership & Community Work

YMCA Youth Co-op: President (NDG-Westmount 2025)

- Led a youth cooperative team in Montréal
- Participated in finance, marketing, HR, and organizational development
- Helped establish the co-op structure and public outreach

Westmount Library Studio Volunteering

- Assisted children with coding and creative technology activities
- Mentored younger students in digital creativity and learning

Mentoring

- Peer mentoring and collaborative academic support
- Strong communication and leadership experience from school and extracurricular environments

Creative Writing & Storytelling

Endless Portals: An Infinite Saga of Enchanted Tales

- Creator of a long-form fantasy and science-fiction universe
- Wrote over 40+ drafted chapters across interconnected storylines
- Focused on multiverse themes, fantasy systems, and large-scale fictional worldbuilding with interlooping plots in stories

Screenwriting & Narrative Development

- Story architecture
- Dialogue writing
- Character systems
- Serialized storytelling

Film, Television & Media

Television & Acting Credits

- Lead role in *Salaam India* on DD Kisan
- Appearance in *Woh Apna Sa* on Zee TV
- Worked on *Iss Pyar Ko Kya Naam Doon* / Star Parivaar productions
- Lead performer in multiple children's rhyme productions for ALTBalaji

- Featured in 9XM 70th Independence Day promotional campaign
- Appeared in Asian Paints advertisement campaigns

Dubbing & Voice Acting

- Voice work for Veere Di Wedding, Bollywood Blockbuster Film
- Voice work for Hindi Medium, Bollywood Blockbuster Film
- Experience in dubbing and vocal synchronization

Industry Exposure

Worked alongside or appeared with figures associated with Indian television productions including:

- Barun Sobti
- Dalljiet Kaur
- Ridhi Dogra
- Sudeep Sahir
- Amit Behl
- Priyanka Sharma
- Jayshree T.
- Utkarsha Naik

Music & Performing Arts

Vocal Performance

- Hindustani classical singing
- Stage performance experience
- Advanced vocal technique development

Instruments

- Electric guitar
- Piano / keyboard
- Self-taught advanced guitar progression

Jazz Ensemble

- Participated in Grade 10 jazz concerts at Westmount High School

Dance & Performance

- Bharatnatyam
- Rajasthani folk dance
- Freestyle dance
- Gymnastics-related performance
- Hula hoop performance arts
- Aerobics and stage choreography

Music Production & DJ Work

- FL Studio composition and sound design
- DJ mixing and event performance
- Rhythm experimentation and advanced rap structure design

Music Recognition

- Band-it Festival 2019: Level 2 participant through Furtado's School of Music

Visual Arts & Design

- Canvas painting
- Intricate Rangoli art across residential communities during festivals
- Embroidery
- Henna art
- Graphic design
- Fashion customization and freelance design work
- Photography including moon and nature photography

Entrepreneurship & Freelance Work

- Freelance design projects including apparel and accessories
- Event hosting and paid performance/event coordination experience
- Multimedia branding and digital content creation

Sports & Activities

- Badminton
- Table tennis
- Chess
- Karate
- Abacus mathematics
- Physical coordination and freestyle performance activities

Awards & Recognition

- Hundreds of school-level and academic awards across multiple disciplines
- School President and Female Class Valedictorian in Grades 3 and 5
- Top finalist in Gladrags Little Miss India
- Participant in Gladrags group dance finals
- National competition recognitions in academics and arts

Cultural & International Experience

- Born in India; relocated to Montréal, Canada in October 2024
- Experience adapting between Indian and Québec educational and cultural systems

- **Strong engagement with Rajasthani cultural traditions and arts**
- **Preference for Québec French learning and integration**

Interests

- **Quantum mechanics**
- **Astronomy and stargazing**
- **Particle physics**
- **Engineering innovation**
- **Story systems**
- **Music production**
- **Scientific research**
- **Multimedia creation**
- **Entrepreneurship**
- **Technology design**
- **Global cuisine exploration**
